## Employment History

### Project Worker, at National Bureau of Investigation, Technology Infrastructure Division

October 2022 – January 2024

- Monitored and maintained the hardware, software, and network infrastructure of the data center to ensure optimal performance and reliability for NBI Clearance Biometric System.

### National Bureau of Investigation, Cybercrime Division

July 2018 – September 2022

- Conducted detailed investigations into cybercrime incidents, including data breaches, hacking attempts, and online fraud, while preparing comprehensive reports and documentation of investigative findings for use in legal proceedings. Identified patterns and trends in cybercrime activities to aid in the development of proactive security measures and stayed updated on the latest cyber threats, attack vectors, and security vulnerabilities.

### On the Job Training, National Bureau of Investigation, Digital Forensics Laboratory

March 2018 – June 2018

- Utilized advanced forensic tools and techniques to collect, preserve, and analyze digital evidence after operations, which was subsequently used in court hearings.

## Education

### **Bachelor of Criminology, Criminal Justice of Colleges, Tunasan, Muntinlupa City**

January 2019 – March 2022

### **Bachelor of Computer Engineering, Gardner College, Diliman Quezon City**
